To be confirmed as performed a spiral sequence must include at least two (2) spiral positions not less than three (3) seconds long each or only one (1) spiral position not less than six (6) seconds long. Only the first executed attempt of a choreo-step sequence or choreo-spiral sequence will contribute to the technical score.

Additional spiral sequences and step sequences will not be counted in the technical score but will be counted as moves-in-the field (transitions) and marked as such.
