

AUSSIE SKATE™

New Curriculum

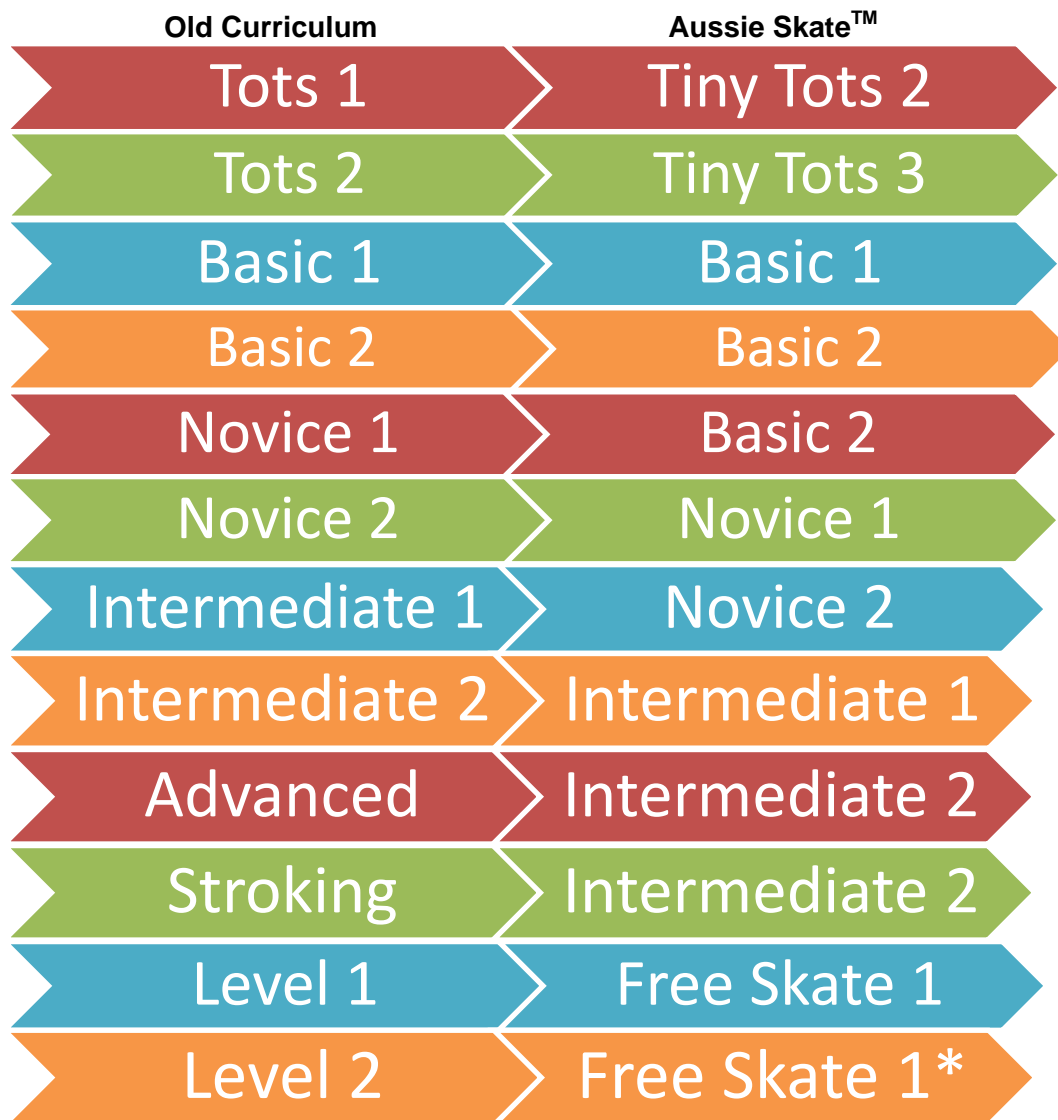

The Aussie Skate™ curriculum contains an addition of elements and rearranging of previously used elements. Clarification as to what class skaters should enroll in is provided below.

First timers between the ages of 3-5 years → Tiny Tots 1

First timers 6 years and older → Basic 1

Conversions for skaters who have passed tests in the old curriculum are:

*Skills to be assessed initially. Skaters may be able to move up within a relatively short time period to Free Skate 2 depending on quality of skating previously.

There are more skills at each level in the new program and now with the Bridge program there are many more choices and types of classes offered.
